Benefits

To get the most out of their educational journey, students must have the tools for personal growth, as well as the practical tools for effective learning. Through this comprehensive programme of school workshops, we take a deep dive into the personal development and accelerated learning elements of education, giving students all they need to forge their own successful path through school and beyond.

Each workshop is effective in its own right and can be delivered as a standalone unit. However, this complete, creative learning programme ensures that each workshop builds on the next to deliver more sustained results.

Practicalities

In total, the Comprehensive Programme is a six-day intervention, that can be delivered face-to-face or online.
